Notes:

- A. Under US GAAP, compensation cost is recognized for shares granted to employees at a price below the quoted market price on the date of the grant. Such compensation cost is amortized over the vesting period. Accordingly, Wipro has recorded compensation expense for shares granted to employees from the Wipro Equity Reward Trust set up in 1984. No such accounting is required under Indian GAAP.
- B. Under US GAAP, income taxes are accounted using the asset liability method. This method requires recognition of future tax consequences of temporary differences between the book - base and the tax - base of assets and liabilities and operating loss carry-forwards. Under Indian GAAP income taxes are accounted using the taxes payable method and the impact of temporary differences is not currently recognized.
- C. Under US GAAP, the financial statements of all subsidiaries, which are more than 50% owned and controlled, are consolidated with the financial statements of the parent. Accordingly, Wipro has consolidated the financial statements of subsidiaries such as Wipro Computers Limited, Wipro Inc., En Think Inc., Wipro Prosper Limited, Wipro Welfare Limited, Wipro Trademarks Holding Limited and Wipro Japan KK. Consolidation of subsidiaries is not permitted under Indian GAAP and dividends are recognized when declared.
- D. Under US GAAP, the financial statements of affiliates (entities where the investor has the ability to exercise significant influence) are accounted by the equity method whereby the share of the investor in the profits/losses of the investee are recorded in the year such profits are earned or losses incurred. Accordingly, Wipro has recorded its share of profits/losses of Wipro GE Medical Systems Limited and Wipro Net Limited. Under Indian GAAP, dividends are recognized when declared.
- E. The accounting for capitalization of interest and capitalization of exchange rate fluctuations differs under US GAAP and Indian GAAP. These and other accounting differences are included as Others.

F. Under US GAAP, the financial statements of Wipro Finance a majority-owned subsidiary were consolidated. Through this consolidation process, losses of Wipro Finance were recorded in the financial statements of Wipro, as incurred. Cumulative losses recognized in US GAAP upto fiscal '99 has completely eroded the total investments in Wipro Finance Limited.

However Under Indian GAAP, the losses are not separately recorded and a permanent diminution was recorded subsequently. The excess of book value of investments over cumulative provision for diminution on loss and sale of investments has been recognized in fiscal 2000.

G. During fiscal 2000 the company transferred shares in Wipro Net to a financial institution. The terms of the transfer provide Wipro with a call option and the transferee with a put option. Further, the transferee is restricted from selling the shares during the period of the option. Under US GAAP, this transfer is not recorded as a sale and accordingly, the profit recorded on this sale under Indian GAAP is reversed.

H. Under US GAAP, the financial statements of Wipro Inc. a majority-owned subsidiary were consolidated. Through this consolidation process, losses of Wipro Inc. were recorded in the financial statements of Wipro, as incurred. Under Indian GAAP, the losses are not separately recorded and a permanent diminution was recorded subsequently. Accordingly, losses recognized under US GAAP in prior periods, have been recorded under Indian GAAP in fiscal 2000.

I. In fiscal 2000, Wipro Net, an affiliate issued shares to the KPN Group. The issue price per share was in excess of Wipro's carrying value per share. Thus the issuance resulted in an increase in the carrying value of Wipro's investment in Wipro Net. The Company has elected to record this increase through the income statement under US GAAP. No gain arises under Indian GAAP, as the equity method of accounting is not applied.

J. This represents the impact of consolidation of losses of Wipro Finance. As the Company has exited the financial services business, the results of operations of Wipro Finance are reported as discontinued operations. As explained earlier consolidation is not permitted under Indian GAAP.

K. This represents the income tax benefit arising on sale of the 50% interest in Wipro Finance. As deferred taxes are not recognized under Indian GAAP, no such gain is recorded.
